Reviewer’s report

Title: In vivo antimalarial activity of the crude leaf extract and solvent fractions of Croton macrostachyus (Euphorbiaceae) against Plasmodium berghei in mice

Version: 2  Date: 5 January 2014

Reviewer: Murad Khan

Reviewer's report:

The author has touched the area which is the demand of the time specially in the third world countries. They have fully explained the methodologies and the various test applied in. The discussion is well balanced and is fully supported by the literature. The title of the paper is appropriate for the explanation of the work done. The paper is well written, the authors has done justice with each and every section.

There are a few minor mistakes as indicated in the text which needs correction/explanation.

The paper should be accepted after incorporating these correction.
