Reviewer's report

Title: In vivo antimalarial activity of the crude leaf extract and solvent fractions of Croton macrostachyus (Euphorbiaceae) against Plasmodium berghei in mice

Version: 4 Date: 10 February 2014

Reviewer: Denis ZOFOU

Reviewer's report:

The authors have carefully addressed most the comments we made during the first round of review. However, the following issue is also very important:

Minor Essential Revisions

Figure 1: How many replicates were carried out in order to obtain the values presented in this figure? Please provide standard deviation or standard errors is the test included more than on measurement.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
