Reviewer's report

Title: Factors Associated with Herbal Use Among Urban Multiethnic Primary Care Patients: A Cross-Sectional Survey

Version: 2 Date: 4 October 2004

Reviewer: Ernesto Kahan

Reviewer's report:

General
The revisions made by the authors in the present new version are satisfactory. They responded to all my suggestions. In my opinion the article is now ready for publication.

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No
