Reviewer's report

Title: Protective action of a hexane crude extract of Pterodon emarginatus fruits against oxidative and nitrosative stress induced by acute exercise in rats

Version: 4 Date: 28 July 2005

Reviewer: Mark J Miller

Reviewer's report:

General
Excellent revision - congratulations to the authors for providing a clear and meaningful adaptation that provides greater insight and applicability.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
None

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
None

Discretionary Revisions (which the author can choose to ignore)
None

What next?: Accept without revision

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: Yes
