Reviewer's report

Title: Evaluation of wound healing activity of Allamanda cathartica L and Laurus nobilis L extracts on rats

Version: 2 Date: 24 February 2006

Reviewer: Derek Knottenbelt

Reviewer's report:

General
Please review your grammar and complete the sentences where necessary!

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
The discussion should contain references to the current state of the art wound management systems involving moist wound healing principles and the use of ancillary measures such as infection controlling dressings, matrices etc.

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article of limited interest

Quality of written English: Needs some language corrections before being published

Statistical review: No
