Reviewer's report

Title: MAK-4 and -5 supplemented diet inhibits liver carcinogenesis in mice

Version: 2 Date: 22 May 2007

Reviewer: Maria Marino

Reviewer's report:

General
In my opinion the manuscript can be accepted in the present form

--------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

--------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

--------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
