Reviewer's report

Title: Effect of Fagonia Arabica (Dhamasa) on in vitro thrombolysis

Version: 3 Date: 12 September 2007

Reviewer: Thomas Stief

Reviewer's report:

General

----------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

----------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

The fibrinolysis results should be given only with one position behind the comma, the assay system used is not as precise as to use two positions.

----------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
