Reviewer’s report

Title: Treatment of pelvic girdle pain with acupuncture: adverse effects of standard treatment, acupuncture and stabilising exercises on the pregnancy, mother, delivery and the fetus/neonate.

Version: 3 Date: 23 May 2008

Reviewer: Adrian White

Reviewer’s report:

The authors have met all my comments satisfactorily, thank you.

I have checked the Abstract for editing, and suggest the following discretionary revisions

Page 2, efficient for the treatment of

Page 2. Use of acupuncture is sparse > is rare

Page 2, started already – delete ‘already’. Possibly insert ‘as early as’

Page 3. Even though this > even despite this

Page 3. Leads to minor > led to minor

Page 3. Complaints on the mothers > complaints from the mothers

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
