Reviewer’s report

Title: Oral administration of PPC enhances antigen-specific CD8+ T cell responses while reducing IgE levels in sensitized mice.

Version: 3 Date: 4 November 2009

Reviewer: Tong-Rong Jan

Reviewer’s report:

The authors answered satisfactorily to most of the questions. The quality of the article is markedly improved. One minor point to suggest: add statistic analysis in the Methods section, which includes the added statement regarding repetition of the experiments.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
