Reviewer's report

Title: Prognostic impact of cd57, cd68, m-csf, csf-1r, Ki67 and TGF-beta in Soft Tissue Sarcomas

Version: 1 Date: 17 March 2012

Reviewer: Keith Skubitz

Reviewer's report:

This paper describes an interesting study. It is well designed and clearly presented. I think it warrants publication with no significant modifications.

Minor Essential Revisions

I do note that on page 4, 4th line, there are 2 references - 1 is in the proper format and the other simply has an author name and year. It appears that the reference that is not properly formatted is not in the reference list, though I did find it in pubmed.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:
