Reviewer's report

Title: Touchdown General Primer PCR and Optimized Sample DNA Concentration Support the Sensitive Detection of Human Papillomavirus: Investigation of Cervical, VAIN, and Breast Tissues

Version: 2 Date: 12 October 2005

Reviewer: Antoinette Brink

Reviewer's report:

General

I am satisfied with the revised version of the paper.

--------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

--------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

--------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

--------------------------------------------------------------------------------------------------

What next?: Accept without revision

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: No
