Reviewer's report

Title: Unexpected combination of acute croup and myocarditis: Case report

Version: 2 Date: 7 February 2005

Reviewer: Kjetil K. Melby

Reviewer's report:

General
The text needs to be examined for spelling errors. The section called conclusion is very long. Perhaps this section should be abbreviated and the text given therein should be moved or or removed

----------------------------------------------------------------------------------
Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
Details on the cultivation and identification of the infecting strain should be included in more detail.

----------------------------------------------------------------------------------
Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
Spelling errors

----------------------------------------------------------------------------------
Discretionary Revisions (which the author can choose to ignore)

rerearrangements of the text

What next?: Accept after minor essential revisions

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No
