Reviewer's report

Title: Immunophenotypic Identification of High-Risk Monoclonal Gammopathy of Undetermined Significance

Version: 1 Date: 8 July 2008

Reviewer: Hans E E Johnsen

Reviewer's report:

This paper does not bring any new validated information - neither do the results fullfil the aims of the paper. There is no data documenting an analytic strategy which identify MGUS at risk for transformation to medullary myeloma.

Level of interest: An article of insufficient interest to warrant publication in a scientific/medical journal

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
