Reviewer's report

Title: Internal Medicine Residency Training for Unhealthy Alcohol and Other Drug Use: Recommendations for Curriculum Design

Version: 1  Date: 23 July 2009

Reviewer: Ian William Webster

Reviewer's report:

Discretionary revisions: I have referred to these in my comments above. But the least I consider could be included would be stronger stress on mental health issues and especially the high level of suicide risk and its assessment (and management).

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interest.
