Reviewer's report

Title: Providing Competency-Based Family Medicine Residency Training in Substance Abuse in the New Millennium: A Model Curriculum

Version: 3 Date: 7 January 2010

Reviewer: Julie Hadley

Reviewer's report:

- Discretionary Revisions

The authors have taken into consideration and have responded to all of my previous comments.

However to aid comprehension of the paper I suggest that the following discretionary revisions are made by the authors:

1) Remove duplicate words: Page 1 line 11- words 'an increase' duplicated in sentence.

2) Methods section - use of single quotation marks to define search terms used in search strategy and state whether these were text words or MeSH terms.

3) Methods section - State inclusion and exclusion criteria relating to search strategy so that the reader can see how the authors selected the 79 relevant articles.
