Reviewer's report

Title: Introducing an online community into a clinical education setting: a pilot study of student and staff engagement and outcomes using blended learning

Version: 4 Date: 7 January 2010

Reviewer: Linda Lewin

Reviewer's report:

This is a very nice response to the previous comments. I only noted one issue: on Page 4 where it says "see findings reported by Kennedy, Gray, and Tse" I would recommend a short summary of those findings, so that the reader would know how they relate to the authors' subject. This is discretionary.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
