Reviewer's report

Title: Global Health Education: a cross-sectional study among German medical students to identify needs, deficits and potential benefits (Part 2 of 2: Knowledge gaps and potential benefits)

Version: 3 Date: 15 September 2010

Reviewer: Kristine M Lohr

Reviewer's report:

Reviewer's report Major Compulsory Revisions
None. The manuscript is much easier to read and contains much better flow. The authors have addressed my suggestions (although I admit that I had to Google “grey literature” and now understand it).

Minor Essential Revisions
On page 19, line 4 of the 3rd paragraph, I suspect the authors meant “…in courses of tropical medicine amongst our (not “your”) sample…”.

Part 1
Discretionary Revisions
None

Part 2
Major Compulsory Revisions
None. The manuscript is much easier to read and contains much better flow.

Minor Essential Revisions
On page 19, line 2 of the 4th paragraph, “hold” should be “held”

Part 1
Discretionary Revisions
None

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
