Reviewer's report

Title: Evidence-based practice profiles: Differences between allied health professions

Version: 3 Date: 3 August 2010

Reviewer: Patricia McInerney

Reviewer's report:

I have no hesitation in recommending this paper for publication. The only aspect which may make the figures a little clearer is the inclusion of a key for the various symbols used in Figures 1 and 2. The headings of the figures could also be more fully described with n values given in brackets (minor essential correction).

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
