Reviewer’s report

Title: Pedagogical strategies used in clinical medical education: an observational study

Version: 2 Date: 10 November 2009

Reviewer: Andrew Grant

Reviewer’s report:

I am delighted to see the revised version of this manuscript which now reads very well.

The authors now have a paper of value to a wide readership among clinical educators. They have put in a lot of hard work and the result is very good in deed.

When published I should like to distribute it to all clinical educators in this institution.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
