Reviewer's report

Title: Pharmacology podcasts (audio lecture recordings): a qualitative study of non-medical prescribing students' use, perceptions and impact on learning

Version: 2 Date: 28 November 2010

Reviewer: John Sandars

Reviewer's report:

The authors appear to have responded to the comments made by the reviewers and I consider that the revised submission is a useful article to the wider readership of BMC education and adds to the current knowledge base on the subject. The research approach is appropriate, including data collection, data analysis and presentation. The conclusions are relevant.

I do not recommend any further revisions.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
