Title: Enhanced virtual microscopy for collaborative education

Version: 1 Date: 29 November 2010

Reviewer: Seema Raja

Reviewer's report:

1 - "Curricular reform efforts and a desire to use novel educational strategies that foster student collaboration are challenging the traditional microscope-based teaching of histology". This sentence is unclear

2- 'The use of the VM system reduced the amount of time faculty spent administering the course by 210 hours,' from how many hours to 210?

3- "The VM system saved faculty time and did not impact student performance on practical exams." - statement is unsupported by the author
