Reviewer's report

Title: Teaching of Evidence-Based Medicine to medical students in Mexico: A randomized controlled trial.

Version: 2 Date: 12 October 2012

Reviewer: Nai Ming Lai

Reviewer's report:

I am happy with the authors' revised work. They have responded thoughtfully to most of my comments and that of other reviewers, and provided sound justifications in cases where they chose to maintain their original statements.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
