Reviewer's report

Title: Does reflection have an effect upon case-solving abilities of undergraduate medical students?

Version: 1 Date: 13 January 2012

Reviewer: Hirotaka Onishi

Reviewer's report:

This study is very interesting from the viewpoint of correlation between case solving skills and other basic skills. Methods mentioned in this study were also clearly depicted. Four variable were also clearly defined. Statistical analyses in this study were OK.

Only minor parts should be revised.

p2: [Methods] Line 3, consultation skills weer --> consultation skills were

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
