Reviewer's report

Title: Acceptance of virtual dental implant planning software in an undergraduate curriculum: a pilot study

Version: 2 Date: 22 June 2012

Reviewer: Ray Peterson

Reviewer's report:

The authors have addressed the matters raised in my previous review, and with all of the corrections from both reviewers the paper is now much clearer in focus.

There are some minor editorial matters which need to be addressed:

Page 4 Line 14 should be 'visualized''
Page 6 Line 3. Change '43' to Forty three
Page 6 Line 24. Sentence beginning 'Perceived usefulness..... needs review.
Delete 'a' ???
Page 8 Line 2 Sentence beginning "The study.... needs review. ....consisted out of....???
Page 8 Line 7 Sentence beginning " The results ..... Table 1" . This is now not correct now with the change in Tables.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
