Reviewer's report

Title: Anatomy teaching with portable ultrasound to medical students

Version: 3 Date: 10 October 2012

Reviewer: Marios Loukas

Reviewer's report:

This is a novel and interesting paper. I would like to congratulate the authors for their innovation and more importantly integration of clinical and basic sciences, especially in the anatomy course. The paper is very nicely written and deserves publication.

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
