Reviewer's report

Title: "Competence, Commitment and Opportunity: Views of faculty on Community- Based Education (CBE)"

Version: 2 Date: 15 August 2013

Reviewer: Filiz kantek

Reviewer's report:

The issue of study is very important for public health. but this study have some problem. the study needs to be developed. The problem of the study is not clear. What is unknown about this issue? Problem should explain in more detail. The authors have given information about CBE in the introduction section. I understand that everything about it is known. What's new in this study were found? This is unclear. Title of study is partially conform with the context . What is the relationship of competence, commitment and opportunity with the views of faculty? how the results of the study will be used in practice? this issue is unclear. Results of the study should be supported by the literature. Limitations of the study have not been made clear. The language used is not understood. Sentences should be referred to more simply. the discussion and conclusions are inadequately supported by the data. the researchers reorganize to this article.

Level of interest: An article whose findings are important to those with closely related research interests
