Title: Evidence based practice in clinical physiotherapy education: A qualitative interpretive description

Version: 1 Date: 18 November 2012

Reviewer: Kay Caldwell

Reviewer's report:

Minor essential revisions

1. Section 'Participants' - would be beneficial to describe the type of sample e.g. voluntary, convenience

2. Each direct quote used in presenting the findings should have a unique identifier and this should be consistently applied across the total sample

3. Correct the inconsistency whereby it is stated in the text (section: 'Participants' paragraph 2) it is stated that 3 of the participants were men, yet the table states 5

Discretionary revisions

1. Include the aim of the study in the text as well as the abstract

Level of interest: An article of importance in its field
