Reviewer's report

Title: Senior medical student perceived ability and experience in giving peer feedback in formative long case examinations.

Version: 1 Date: 25 March 2013

Reviewer: Sam Leinster

Reviewer's report:

1 This is a well-designed study on a topic of increasing importance in medical education. The methods are appropriate and the results have been clearly described. The discussion takes account of the previous literature and the conclusions drawn are consistent with the data presented.

2 Major Compulsory Revisions

None

3 Minor Essential Revisions

I apologise for nit-picking but page 7 line 4 the word 'they' is missing from the sentence beginning 'Surprisingly'. Reference 20 should read Gibson DR rather than Gibson Dr.

4 Discretionary Revisions

None

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
