The title of the study could be worded better, as 'of experienced nurses in critical care' could have multiple meanings.

Authors should think about addressing the limitations of the study in the discussion, which would allow for future researchers to possibly adjust methodology in creating a reliable study.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
