Reviewer’s report:

Here are the comments on the manuscript:

Major Compulsory Revisions
1. There is mention of online learning on page 4 of the manuscript. Although it is a growing field, the author needs to explain a little more about the introduction of biostatistics into an online format for learning. The way it is currently worded seems abrupt.
2. There is mention of RO1 format....need to explain what this is. All readers may not be aware.

Minor Essential Revisions
3. Some spelling mistakes to be corrected - qualitative on page 6, exaggeration on page 6, etc..... author needs to run a spell check. Other formatting errors (certain words in upper / small caps).

3.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
