Reviewer’s report

Title: National Survey of UK Medical Students on the Perception of Neurology

Version: 2 Date: 24 May 2014

Reviewer: Emmanuel Sanya

Reviewer’s report:

The article is well written and concise, the response rate is poor-7%. it would have been nice if the study added the usefulness of ICT on learning neurology and a guide to neurology demonstration as answer to some of the recurring questions in this study and earlier ones, since the study was carried in UK?

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
