Reviewer's report

Title: A real-time locating system observes physician time-motion patterns during walk-rounds: a pilot study

Version: 3 Date: 14 February 2014

Reviewer: Scott Wright

Reviewer's report:

Paper is better.

Figures are still impossible to appreciate if you are anyone other than the authors who created them. There is no explanation of the different color squares and lines.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

no competing interests other than the fact that I am Canadian and I am supportive of Canadians.
