Reviewer's report

Title: Influence of the Hospital Workplace on Learning Clinical Skills

Version: 2 Date: 7 November 2013

Reviewer: Rita Sood

Reviewer's report:

This is a well written and thought provoking paper on an important subject of clinical skills learning. This qualitative piece of research has answered very well the clearly posed questions by the authors. The results have important implications for the individual students, hospital departments that train students and universities, to plan and improve their clinical training programs. I enjoyed reading this article.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
