Reviewer's report

Title: Student evaluation of an OSCE in Paediatrics at the University of the West Indies, Jamaica

Version: 2 Date: 24 June 2004

Reviewer: John Spencer

Reviewer's report:

General
The authors have satisfactorily addressed all the issues I raised in my initial review

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
None required

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
None required

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:

As stated in my original review, I am External Examiner to Stage 1 of the undergraduate medical degree programme at Mona, and know several of the authors of this paper. However I have nothing to do with the year 5 paediatrics teaching, nor its assessment.
