Reviewer's report

Title: Teaching statistics to medical students using problem-based learning: the Australian experience

Version: 2 Date: 29 November 2004

Reviewer: Judith Wylie

Reviewer's report:

General

-----------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

The previously requested revisions have been dealt with appropriately.

-----------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

1. The word 'example' seems to be missing from the final sentence of the first paragraph of the Background.
2. In the second sentence of Methods, problem-based learning should be hyphenated.
3. A hyphen is missing in the sentence following the sentence containing the web address.
4. There is an extra space before the comma in the second bullet point of the Results.
5. Appendix, final paragraph: in the second sentence the 'a' needs to be removed; in the penultimate sentence 'them' should be 'their'; in the final sentence should an 's' should be added to 'student'?

-----------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No
