Reviewer’s report

Title: Unhappiness and dissatisfaction in doctors cannot be predicted by selectors from medical school application forms: A prospective, longitudinal study

Version: 2 Date: 28 October 2005

Reviewer: David Alan Powis

Reviewer’s report:

General
All concerns and suggestions made in my original review have been addressed entirely satisfactorily by the authors. I have no more comments to make other than the MS is now even more easy to read and comprehend.

-------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

-------------------------------------------------------------------------------

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No
