Reviewer's report

Title: Learning to Mark: a qualitative study of the experiences and concerns of medical markers.

Version: 2 Date: 2 March 2006

Reviewer: Brian McKinstry

Reviewer's report:

General
I am happy with the revisions made by the authors. This is an interesting piece of work which although small in scale provides useful insights.

-----------------------------------------------
Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)NONE

-----------------------------------------------
Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)NONE

-----------------------------------------------
Discretionary Revisions (which the author can choose to ignore)NONE

What next?: Accept without revision

Level of interest: An article of importance in its field
