Title: Organizational Role Stress among Medical School Faculty Members in Iran: Dealing with Role Conflict

Version: 4 Date: 18 March 2007

Reviewer: Mark Linzer

Reviewer’s report:

General an excellent revision!

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

abstract conclusions section has grammatical errors (insufficient autonomy to take decisions for...) that could be corrected.

discussion section still has long paragraphs that should be shortened to improve readability.

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
