Reviewer's report

Title: Who Wants to be a Surgeon?

Version: 4 Date: 13 November 2006

Reviewer: Gregory Rutecki

Reviewer's report:

General
The authors of manuscript have effectively addressed all of my suggestions regarding major and minor revisions. To reach this conclusion, I have reviewed: the revised manuscript, the covering letter, and my previous, initial review. Since the question regarding women in surgery is an important one, this manuscript should be published as submitted (final draft after appropriate revisions).

---------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

---------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

---------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)
