Reviewer's report

Title: Self-rated Health of Primary Care House Officers and its Relationship to Psychological and Spiritual Well-being

Version: 9 Date: 31 March 2007

Reviewer: Reidar Tyssen

Reviewer's report:

General

------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Table 3: The age and sex - adjusted version that was included in the cover letter should be included also in the paper. Alternatively, a footnote to the present table (and maybe a also notion in the text of resulfts) could state that the findings were significant even when they were adjusted for age and sex.

------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
