Reviewer's report

Title: Gender performance among general practitioners. Results of a training programme

Version: 1 Date: 25 March 2008

Reviewer: Joachim Szecsényi

Reviewer's report:

Discretionary Revisions
This is a well performed explorative study on an important topic. It is well written up and well discussed. My only concern is the the term "gender performance". Can the authors comment why they are not choosing "gender sensitivity".

What next?: Accept after discretionary revisions

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
