Reviewer's report

**Title:** Drivers for change in primary care of diabetes following a protected learning time educational event: interview study of practitioners

**Version:** 2  **Date:** 18 December 2007

**Reviewer:** DAVID CUNNINGHAM

**Reviewer's report:**

I consider that this paper is much improved. the authors have taken on board the feedback from me, and from my fellow peer reviewer. From my point of view the results section is a little fragmented and under-analysed still. However I consider it worthy of publication in its format.

there were one or two typographic errors which will be apparent to close scrutiny

**What next?**: Accept after discretionary revisions

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.
