Reviewer's report

Title: Psychosocial Health Risk Factors and Resources of Medical Students and Physicians: a cross sectional study

Version: 3 Date: 2 July 2008

Reviewer: Patrick Bovier

Reviewer's report:

I have read the responses of the author to my remarks. The way they responded and changed the manuscript is acceptable and I suggest that the manuscript can be accepted for publication in BMC Medical Education. However, this paper probably needs some language corrections before being published.
