Reviewer's report

Title: An educational game for teaching clinical practice guidelines to Internal Medicine residents: development, feasibility and acceptability

Version: 2 Date: 11 October 2008

Reviewer: Gerard McKay

Reviewer's report:

Major - none

My initial concerns re: the conclusions have been addressed. This is a feasibility and acceptibility study.

Minor - one small comment

I would replace the word 'incite' in the final paragraph of the discussion with 'encourage'

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
