Reviewer's report

Title: Learning to Prescribe - Pharmacists' Experiences of Supplementary Prescribing Training

Version: 2 Date: 20 October 2008

Reviewer: Derek Stewart

Reviewer's report:

The authors have amended the paper in line with my comments or have provided appropriate justification as required.

There are only 2 minor issues

1 In the results section, demographics, p is given as =0.000. Should this be p<0.001?

2 I still feel that the discussion is very long in relation to the other sections of the paper. I am happy to leave for editorial comment.
