Reviewer's report

Title: A generalizability study of the medical judgment vignettes interview to assess students' noncognitive attributes for medical school

Version: 1  Date: 28 August 2008

Reviewer: Ortrun Meissner

Reviewer's report:

Limitations of study:
1. The sample size is fairly small.
2. The students interviewed have already been admitted to med school!

Own observation: I noticed the fairly high mean age of subjects as compared with the age of our own first year medical students!

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
