Title: The effectiveness of web-based and face-to-face continuing education methods on nurses' knowledge about AIDS: A comparative study

Version: 3 Date: 20 April 2009

Reviewer: Greg Ryan

Reviewer’s report:

Needs some language corrections before being published

Abstract – Conclusions: The second sentence is not supported by the findings of the study – it suggests that the web-based method is superior – needs to be re-written

1. p.4 Background section – 2nd para, 3rd sentence: “However, studies show that this method has several limitations.”

2. p.10 sentence: “After one week, the passwords expired and the online course material was not accessible more.” There is a word missing here.

3. p.15 sentence: “Moreover, as a result of technical problems we could not verify….”
