Reviewer's report

Title: Capacity Mapping Of National Ethics Committees In The Eastern Mediterranean Region

Version: 1 Date: 23 March 2009

Reviewer's report:

1. The authors have attended to my queries and in my view probably also adequately addressed the comments of the other reviewers - but you will hear directly from them

2. I do think that the article is now much improved and has useful information for your readers - in particular those in developing countries.

3. There are a few minor typos but I am sure these will be corrected in the editorial process

4. So I would be happy to see it published
