Reviewer’s report

Title: The ethical decisions UK doctors make regarding advanced cancer patients at the end of life - the perceived (in) appropriateness of anticoagulation for venous thromboembolism: A qualitative study

Version: 1 Date: 7 March 2012

Reviewer: Eduardo Rodriguez

Reviewer's report:

Research presented would have been enhanced if points of view of close family members of dying patients would have been incorporated, not just physicians views

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
