Reviewer's report

Title: The ethical decisions UK doctors make regarding advanced cancer patients at the end of life - the perceived (in) appropriateness of anticoagulation for venous thromboembolism: A qualitative study

Version: 1 Date: 3 May 2012

Reviewer: Sergio Litewka

Reviewer's report:

This article is interesting, although I am not sure if the sample is statistically significant. In any case, these conclusions might be extrapolated to other end of life issues.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
